Dear Mr Huber,

On behalf of the Roll Back Malaria Partnership, the United Against Malaria Campaign and the Global Fund to Fight AIDS, Tuberculosis and Malaria, I would like to extend a sincere thank you for the Press Conference and the match Brazil-Tanzania.

Kentaro provided the opportunity to draw further attention and momentum to United Against Malaria, a campaign that has already achieved success in raising global awareness and renewing worldwide commitment to ending malaria. These events were a great success in highlighting the issue of malaria on a global platform, and it would not have been possible without your support.

By bringing together malaria advocacy groups, political, football and corporate leaders, the United Against Malaria campaign galvanizes partners to reach the United Nations 2010 target of universal access to malaria prevention and treatment in Africa, a crucial first step in reducing deaths to near zero by 2015. Using the World Cup as a catalyst, we will continue to augment political will and public action to work towards the United Nation's important goals.

We are grateful once again for your tremendous partnership with the United Against Malaria campaign and we look forward to our continued work together.

Yours sincerely,
